

NORATEK ROADREPORTER

mobile data collection

Go GREEN by eliminating
paper with RoadReporter

- Improve Accuracy and Increase Input
- Fill forms on/site with a handheld device
- Add photos, video and GPS co-ordinates

- Eliminate paperwork and duplication process
- View, edit, wirelessly print and email reports as needed
- Synch data wirelessly via WiFi
- Output generated from userweb interface

"The foremen are doing the forms out in the field and doing much more of them because it is quick and easy to do. It's great that there is no paperwork for them to fill out back at the office when the job is done."

"The foremen found the Blackberry easy to use and didn't have to be computer savy to figure it out"

**Shelley Fulmes
Quality Control/Planning Manager
Caribou Road Services**
